

Qarrar — Menu & Pricing

Pricing Philosophy

- **Arabic-first value framing:** pricing presented in SAR and USD, billed monthly or annually (annual = 2 months free).
 - **Free tier as wedge:** remove friction for solo users; the habit-forming moment is finalizing the first decision.
 - **Team tier as revenue engine:** collaboration, audit log, and governance features gated here — this is where the "defensible decision" pitch converts.
 - **Enterprise as credibility marker:** even low-volume, it signals seriousness and unlocks procurement-led deals.
-

1. Subscription Tiers

Free — "جرب قرار" (Try Qarrar)
